- Proven project management proficiency with leadership and mentoring skills, showcasing collaborative capabilities to achieve project goals.

Personal

- Presentation skills
- Communication skills
- Time Management
- Well-Organized

Experience

Senior Frontend Engineer at I-SOFT INTL.

2/2023 : Present

- **Transport and Vehicle Systems | Saudi Standards, Metrology and Quality Organization (SASO) & Roads and Transport Authority (RTA) Dubai**

Contributed significantly to front-end development for SASO and RTA Dubai systems, utilizing React and Redux to build responsive web apps for vehicle inspection, safety compliance, and internal messaging. Collaborated with Java back-end teams to implement features such as authentication, inspection workflows, payments, reporting, booking, and offline functionality—enhancing operational efficiency across both authorities.

Mid-Level Frontend Engineer at SAG Techs

2/2020: 2/2023

- **Plato Campus | SAG Techs**

Instrumental in developing a web app for Plato Campus, a learning management system. Used React and Redux to create a fast, user-friendly interface. Collaborated with a Laravel back end to implement features like course creation, video streaming, quizzes, feedback, and certificates, enhancing the online learning experience.

- **Compass | International Organization for Migration**

Played a key role in crafting the front-end of a web app for the Compass initiative. Used React and Redux to create a fast, user-friendly interface. Collaborated with a Laravel back end to implement features like user authentication, service provision, case referral, and reporting, advancing the initiative's global objectives.

- **Upper Egypt Local Development Program | Ministry of Local Development**

Contributed to front-end development for UELDP's web app in Upper Egypt. Used React and Redux to create a fast, user-friendly interface. Collaborated with Laravel for features like user registration, project details, and progress tracking, ensuring program success.
